WASHINGTON.

Rosecrans Accepts Mexican Mission.

Gen. Schofield at West Point.

Internal Revenue Commissionership.

Opinion of the Attorney General.

No Vacancy in the Office.

Special Dispatch to the Commercial.

WASHINGTON, D. C., August 12, 1868.

The Mexican Mission.

Since an outline of the views of the Government concerning Mexico has been communicated in part to General Rosecrans, he has decided to wait till the return of Mr. Seward before accepting the position of Minister to Mexico. He informs his friends that he has no desire for public office unless he feels that he can perform useful service in it. While he is not sure of the exact policy the Government will adopt, he thinks it will be such as he can heartily indorse, to carry out, that until he is certain regarding this, he prefers not to formally accept his commission.

Reception of Sailors.

The President to-day received the members of the National Convention of Sailors, now in session in this city. He addressed them for half an hour. The only political allusion in the speech was to call their attention that just now a good many demagogues in the country were trying to use the labor question to procure office, and that all such men should be watched and avoided.

Gone to West Point.

Secretary Schofield was called to West Point upon this afternoon by the critical condition of his son. It is very doubtful whether he can recover.

Acceptance.

The result of the discussion yesterday on Mexican affairs in the Cabinet finally decided General Rosecrans to accept his commission, and this afternoon he took the oath of office.

SALEM, OHIO.

Runaway Accident—One Man Killed and Several Injured.

Special Dispatch to the Commercial.

SALEM, O., August 12, 1868.

Yesterday evening, as the New Lisbon hack was returning to New Lisbon from a Democratic mass meeting at Wellsville, the horses in the hack ran away down a hill about a mile and a half south of New Lisbon, running into a buggy occupied by Mr. James Seaton, an old and respected citizen of Salem, and Jesse Harris, also well known here, throwing both gentlemen out and badly injuring them both. Mr. Seaton's injuries are mostly on the head, and are considered very dangerous, as are also those of Mr. Harris, who had several ribs broken, and also several severe cuts on the head. The hack was full of passengers who, as soon as they saw that the horses were running away, began to get out, but before they had all escaped from the vehicle it struck the carriage and then ran to the side of the road immediately afterwards, and half over the end of a culvert, by which Mr. George Miller, Sr., who was at this time the only person remaining in the hack, and who was then attempting to get away, was thrown to the ground and run over by the wheels. Mr. Miller died last night. At last accounts, Mr. Seaton and Mr. Harris both appeared to be getting worse.

BUCYRUS, O.

The Democratic Squabble—Another Convention to be Held.

Special Dispatch to the Commercial.

BUCYRUS, OHIO, August 12, 1868.

The Central Committee of Crawford county were in session to-day, with the masses of the Democracy at their back. They submitted a conference with the different counties of the Ninth Congressional District, looking to a speedy convention of the Democracy of the district for the purpose of placing in nomination a suitable candidate for their Representative in Congress. The feeling seemed to be general that if Mr. Nolan would withdraw, Crawford county would compromise on a candidate from either Erie, Huron, Sandusky or Ottawa county, and if such a compromise can be brought about, it is claimed by the Democrats that the candidate, whoever he may be, will receive not less than 2,000 majority in Crawford county.

THADDEUS STEVENS.

SCENES AT HIS DEATH BED.

Arrangements for Funeral.

Tokens of Respect to His Memory.

Special Dispatch to the Commercial.

WASHINGTON, D. C., August 12, 1868.

The death of Mr. Stevens, which occurred a few minutes after midnight last night, was not expected during the early part of the evening, as it was known that he had appeared stronger throughout the afternoon, and conversed more freely than for some days past upon public matters. In the afternoon he was informed by an acquaintance of the point of Mr. Evarts's opinion in the Rollins case. He expressed himself very warmly towards Mr. Evarts, and declared his belief that he would act the part of a statesman in the advice he was called on to give the President, and that he (Mr. Stevens) felt proud that he had urged his confirmation.

He spoke also of General Schofield as one whom he admired, and in whose official judgment he placed great confidence. He discussed the question of sending General Rosecrans to Mexico, and said he hoped our Government would extend such help to that tottering Republic as it needed. Regarding the political prospects, he declared his firm belief that Grant would be elected, and that he would carry out the great Reconstruction laws; that the great political questions were now reconstruction, finances and the railway system.

After an hour's conversation of this character, his physician came in and said he must not be wearied by talking, as he appeared to be losing strength. [illegible]

[illegible]

WASHINGTON, August 12.—The announcement that Thaddeus Stevens died last night at twelve o'clock, caused some surprise, as it was not known his condition was so critical. To his immediate household, however, his death was not unlooked for, as he has been growing weaker for several days. [illegible]

THE OIL REGION.

Oil City and Vicinity—Cottage Hill—Wooden and Brick Houses—Adjoining Oil Farms, Etc.

Special Correspondence of Pittsburgh Commercial.

OIL CITY, PA., August 8, 1868.

Among the towns of the Oil Region, Oil City stands first in point of commercial importance. The facilities afforded by Oil creek, the Allegheny river, and the three railroads entering here, for the transportation of the vast petroleum product to the markets of the civilized world, is proof sufficient to convince the most skeptical. As it is an accepted axiom that great commercial cities and centres are built at the confluence of navigable streams the people here have the probabilities of such an event transpiring at no distant day, largely in their favor. Titusville is the only shipping point that essays to compete. While its people are deserving of the highest praise for their enterprise, natural advantages which create commercial centres is against them. The vast refineries of Pittsburgh and Cleveland, the large demand in that direction, and the cheap and rapid means of transportation offered by the Allegheny river at several seasons of the year, are insuperable obstacles against which it is useless to contend.

The resident population of Oil City we should estimate at about 4,000. Venango City, on opposite side of river, about 2,000. Cottage Hill and Venango City were evidently intended by nature for the town site. [illegible]

MONTGOMERY, ALA., August 12.—The Legislature took a recess this afternoon to the first Monday in November. No action was taken on the Governor's veto, and it remains to be disposed of on reassembling in November, the day before the Presidential election. The State Legislature is still in session. Resolutions to adjourn next Monday have passed, but it is expected the session will be prolonged.

OHIO.

CINCINNATI, August 12.—The Democrats held their Convention to-day to nominate candidates to represent the First and Second Ohio districts in Congress. General P. W. Strader was unanimously nominated on the first ballot to oppose Hon. Ben. Eggleston in the First District. Gen. Strader is one of our oldest and most prominent citizens, and is favorably known throughout the country as being connected with and actively engaged in every important enterprise calculated to improve or advance the prosperity of Cincinnati. His connection for a long number of years with both the steamboating and railroad interests of this city, especially in the capacity of general ticket agent of the Little Miami railroad, pre-eminently qualifies him for the position, and combined with his great personal popularity makes him in every way the very strongest man the Democratic party could have selected as their candidate. No candidate was nominated for the Second District, but General Cary, the workingmen's candidate and present representative, was indorsed, and the party pledged to his support. For county officers, Thomas J. Stevens was nominated for Sheriff, and J. M. Noble for Auditor.

TENNESSEE.

NASHVILLE, August 12.—The Republican State Convention met to-day. Hon. Horace Maynard was chosen President, and Vice Presidents and Secretaries appointed. A letter from Governor Brownlow was read, and a committee appointed to draft resolutions on the death of Thaddeus Stevens.

A very active contest has been in progress for some weeks in this Congressional District, between S. C. Mercer and W. F. Prosser, candidates for the Republican nomination. The District Nominating Convention met in this city to-day, and two delegates appearing from this county, both were ruled out. The votes of the remaining counties were then taken, with the following result: Mercer 14, Trimble, no candidate, 14, Prosser 8, Harrison 2. Without taking another ballot the convention adjourned sine die. This unexpected action of the convention leaves both candidates in the field without a prospect of adjustment of the controversy except at the polls.

The Cleveland street railroad carried one hundred and ten thousand persons during the month of July. The road is six miles in length.

THE DEATH OF HON. THADDEUS STEVENS.

On motion of Josiah Cohen, Esq., a committee consisting of Josiah Cohen, Col. John M. Cooper, W. B. Hunter, W. S. Purviance and Abe Patterson were appointed to draft resolutions in regard to the death of Hon. Thaddeus Stevens.

The following is the report of the committee:

WHEREAS, We have this day learned that at twelve o'clock last night at the seat of Government, and in sight of the National Capitol, the scene of his great achievement, Thaddeus Stevens, the great Commoner, died in the harness of public life, "passing away quietly and calmly without a struggle, as though falling asleep;"

Resolved, That in his death, the country at large has sustained the loss of a brilliant statesman and a noble patriot, and the State of Pennsylvania, indebted to him as she is for the Common Schools which adorn her cities, towns, and villages, and upon whose legislation for half a century past, the impress of his great mind is imperishably stamped, mourns for her ablest and greatest son.

Resolved, That we regard the death of this great champion of human rights and his removal from the national councils as a public calamity, and that we shall ever consecrate his name and fame with that of the benefactors of our race to the latest posterity as the great moral hero of his time, always battling for the rights of the oppressed against the oppressors, unawed by the frowns of power, and unswerved by the blandishments of political station or success.

On motion the committee adjourned to meet on Wednesday next.

The Proposed City Park—Visits of the Park Commission.

The Park Commission of the City Councils, in acceptance of an invitation from Mr. Philip Winebiddle, yesterday visited his property located on both sides of the Greensburg turnpike, between Lawrenceville and East Liberty, with a view of selecting it as a site for the proposed City Park. The Winebiddle property, on which are located Winebiddle's Woods, comprises over one hundred acres, and the proposed site embraces about three hundred acres more adjoining, belonging to different parties making in all about four hundred acres. The members of the Commission were shown over the property by Mr. Winebiddle.

After leaving Winebiddle's property, the Commission visited another proposed site, located in the vicinity of Oakland. This property comprises three different tracts of land—the Schenley estate, located back of Oakland, the property of D. H. Fralich, Esq., located between Oakland and the Monongahela river on Four Mile Run, and the property known as Linden Grove, owned by James S. Craft. The property contains about six hundred acres of land, commanding fine views of the old city, the valley of the Monongahela and the East Liberty valley. It is conveniently located to the old city proper, and the Commission seem highly pleased and very favorably impressed with it.

The Commission have received an invitation from some property holders near Hazelwood, on the Connellsville Railroad, to visit that place and examine a tract of land with a view of selecting it as a site for the Park. The invitation has been accepted, and the Commission will visit the property in a few days.

Intense Excitement on Fifth Street—Capture of an Alleged Criminal.

About one o'clock yesterday afternoon considerable excitement was occasioned on Fifth street by a man running at top speed along that thoroughfare, closely followed by a half dozen policemen. The man was running in the direction of Smithfield street, and just as he turned the corner he collided with a policeman. The latter caught and held him until the crowd came up, when the offender was taken to the lock-up. From what we can learn concerning the cause of the arrest, it seems that about six or seven weeks ago, Benhardt promised to procure a situation for a young girl named Caroline Hoon, then a resident of Birmingham. Since that time she has not been seen, and her friends thought Benhardt had something to do with her disappearance. Yesterday morning Cosmar [illegible], brother-in-law of the girl, met Benhardt on Market street, and he immediately inquired of him concerning the girl. The accused refused to tell anything about her and the police were called to arrest him. As the latter were about complying with [illegible]'s request Benhardt darted off along Market towards Fifth street, thence up Fifth to Smithfield street, where on turning the corner he, as stated, fell into the arms of a policeman.

[illegible] made information before the Mayor last evening charging Benhart with adultery. The offence was committed with Caroline Hoon, the girl whose whereabouts is not known. The defendant is in the lock up and will have a hearing to-day. He states that he knows nothing about the girl, and has not seen her since the morning of her disappearance. It is thought that she can be found.

Walking Match Against Time—One Hundred Miles in Twenty-four Hours.

Napoleon Young, champion pedestrian of Ohio, has undertaken the great task of walking one hundred miles in twenty-four consecutive hours, and yesterday afternoon at four o'clock started on his tramp, at Union Park, Allegheny. He walked the first mile in seven minutes and fifteen seconds, and accomplished the first six miles in one hour. He is confident he can accomplish the first fifty miles in ten hours. He was still on the tramp at last accounts making good time, and apparently not much fatigued. He is dressed in costume, and carries in each hand a small round stick, with which, it is supposed, he intends keeping his limbs "awake." If he accomplishes the task he will be at the end of his tramp at four o'clock this afternoon, and will have to make [illegible] of Union Park two hundred and ninety-one times. Quite a large crowd was present in the afternoon and evening, to witness the pedestrian in his travels. Young is not walking for a purse, but, if he accomplishes the feat, we understand a number of Ohioans who are here, intend backing him against Weston, Topsy, or some other noted pedestrian.

DEATH OF JUDGE GEORGE, OF OHIO.—Hon. Thomas George one of the oldest and most prominent citizens of Ohio, died at his residence near Steubenville on Monday last, in the ninety-third year of his age. FREIGHT CARS DEMOLISHED.—On Tuesday afternoon three freight cars, on the Connellsville Railroad, were wrecked at Salt Works Station. The cars were being shifted to a siding, at the place mentioned, when the check post at the end of the track gave way. The forward car went over an embankment, and was entirely demolished. The front trucks of the second car fell on the top of the first car, and the rear car, which was filled with stone, came against it with such force as to throw it up on its end. The middle car was constructed of iron, but it was damaged to a considerable extent.

BRAKEMAN INJURED.—Isaac Printer, employed as a brakeman on the Pennsylvania Railroad, met with a severe accident at the Outer Depot, on Tuesday evening about nine o'clock. He was engaged upon a train that was being shifted to a siding, when by some mischance he fell between the cars. His right arm was caught between the bumpers and shockingly crushed. He was removed to his home in the Fifth ward, where Dr. Hamilton is attending him. It is thought that the arm will have to be amputated.

A YOUNG THIEF.—Yesterday afternoon a boy went into Gotham's confectionary, on Ohio street, Allegheny, and asked a girl standing behind the counter if she could change a five dollar note for him, at the same time placing his hand in his pocket with the pretence of taking out the note. The girl proceeded to make the change, and placed a two dollar note on the counter, which the boy snatched and ran out the store with. Pursuit was made, but the young thief dodged into an alley and succeeded in making his escape.

Where the New Land Is.

Our readers will find on our fourth page an article on wheat and flour, and can ascertain where the best wheat comes from. Also a test which may end the controversy. T. C. Jenkins claims to have given proof, in the way of letters and dispatches, from the most important points, and the public can form their own conclusions as to the prospects.

One of the Mayor's Police Says Chronic Catarrh had Reduced Him in Weight to 141 Pounds, and that Under Proper Treatment He has been Relieved of the Distress, and has Gained Twenty-two Pounds, now Weighing 163 Pounds.

I certify that I had been dangerously afflicted with chronic catarrh of the head, which reduced me in weight to 141 pounds; I tried several physicians without avail, and had lost nearly all hope of ever being cured, or even receiving any benefit, being frequently confined to bed for six weeks at a time. I was induced to apply to Dr. Aborn, of 134 Smithfield street, on the 24th of March last, and it affords me great pleasure to state that I have been constantly gaining since I placed myself under the Doctor's skillful treatment, and have gained twenty-two pounds of healthy flesh, and indeed, I look and feel like a new being, many of my friends scarcely recognizing me, such a marvelous change having been wrought in my health.

WM. FLINN,
City officer, under Mayor Blackmore. Residence, Fifth Ward, Pittsburgh, Pa.

The Daily Commercial

THURSDAY, AUGUST 13, 1868.

THE COMMERCIAL is the largest daily paper in the State, and has daily one-fourth more reading than any other paper in Pittsburgh. It is the only Pittsburgh paper that uses the telegraph liberally, gives full market reports, and all the news of the day.

As proof of the estimate placed on the market reports of the COMMERCIAL, we will state that they are regularly copied by the New York Economist, Shipping List, Iron Age, and other papers of that character in that and other cities, and that leading English commercial papers [illegible] copied them with credit. There is within the hundred miles, hardly an Iron Factory, Oil Refinery, or leading manufactory of any kind that is not a subscriber to the COMMERCIAL, principally, because its reports are the only full and reliable given of the Pittsburgh markets.

CARY, Representative from Cincinnati, made a speech there on Monday evening. His threat to vote for repudiating the national debt, in a certain contingency, was greeted with more hearty applause than anything else he said. If you would bring down the house at a Democratic meeting, all you have to do is to talk repudiation. At the South they season the thing with a "small sprinkle" of revolution.

If the Tammany ticket is just the thing for true men, and if its election is to be desired for the sake of peace and good government, how does it happen that all the old rebel leaders have suddenly moved to the front in its support? Have they changed and become wise and good all of a sudden, or are they, being about as bad as ever, intent on a scheme to execute a purpose in which, up to this time, they have failed?

WHEN NAPOLEON spoke at Troyes, his chief sentence, in a very short speech, was "God preserve France." There is little doubt that NAPOLEON's idea of Providential care for France is in the preservation of the NAPOLEON dynasty. That is the extent he cares for France. NAPOLEON is a terse and happy speaker. He does not readily commit himself, and his late speech, in reply to the people who called him out, was one of his happiest efforts in confounding his rule with the care of Divine Providence over the Empire of which he is at present master.

WADE HAMPTON retreats. When some of his former sentences were printed and commented on he felt seriously annoyed. He attempted at Columbia, S. C., on Saturday to explain his position. He said he did not intend to fight this Presidential campaign under the Confederate flag, "that is furled for ever, to be buried in the grave of the lost cause." When a leader changes base so suddenly and entirely alters his course, there is not much reliance to be placed on what he says. At one time, since the Tammany nominations, HAMPTON has been for sweeping every vestige of Northern government from the South, reviving the old social curse and threatening death and destruction to all who opposed. He was for starving all the colored people who would not vote the Democratic ticket. The next character we find him playing is speaking between two colored men, arguing that he and his confederates were their only true friends, and that the ruin of the whites was destruction for the blacks. Next he furls and buries the Confederate flag. Truly WADE HAMPTON plays many parts, but he cannot hide his rebel proclivities.

We are disposed to think that Governor BULLOCK, of Georgia, in vetoing the bill providing for the selection of Presidential electors by the Legislature, has acted wisely. That strong reasons can be brought forward in support of the principle as it has always prevailed in South Carolina, we are prepared to believe; but it is contrary to the spirit of our Government, and although at the present time probably better reasons than ever exist for its adoption in the South, we hope the present attempt will fail. South Carolina removed the question of President as far from the people as possible, by committing the choice of electors to the Legislature, which was chosen every two years. We believe the opposite is the only correct principle—that the amplest facilities for enabling the people to participate in the election of President should be afforded. That the people of any section of the Union possess not the intelligence, have not the requisite patriotism, or that a Legislature chosen by them would perform the duty of choosing electors with a greater degree of discretion, we shall be slow to believe. An ulterior purpose, however good in itself, will not justify a flagrant departure from the underlying principle of popular government. We therefore hope that the proposition, which is being extensively entertained in the Southern States, to commit to the Legislatures the selection of electors, unless there is some better reason for it than we know of, will be abandoned, or will fail whenever it is attempted.

TOOMBS AND COBB.

These two men contend with WADE HAMPTON for mastery in misrepresentation and lies. Not content with honorable warfare, they turn like savage hounds on to the well earned fame of General GRANT, and by lies, wilful and perverse, seek to give a coloring to his military acts that only reveals the baseness of their own natures. TOOMBS calls GRANT a conqueror somewhere, a [illegible], but COBB denounces him in [illegible]. Alluding to General GRANT, he says: "But the man who, after the battle is over, travels over the field and with a [illegible] I cannot command, draws his sword to thrust it into each corpse as he goes along—such a man can never command my respect, and if my advice is heeded, will never get a vote in Georgia."

This is that venomous kind of [illegible] which does the authors more injury than the brave man against whom it is directed. No one will suppose that General GRANT ever did commit an act of the kind who [illegible]. Even granting [illegible] of COBB to be only a figure [illegible]. It is conveyed in a dastardly manner, more criminal than as if the charge was broad, open and directly made. And this is the class of men the South adopt as leaders. There is a class, no doubt, who will believe such wicked and slanderous imputations. They must be left to grovel in their own errors until the progress of events has demonstrated how their leaders have tried to deceive them, by calumniating the noblest and worthiest soldier of the Republic.

THE LATE THADDEUS STEVENS.

The country could ill spare this patriot in the present crisis of affairs. It may be that he took singular views of some of the leading questions of the day, but none ever doubted his honesty; and in a time like the present, when honesty is the great desideratum needed, the loss of an honest man is severely felt. For a long time he fought as it were against death. His mental powers triumphed over the physical, presenting the appearance of a worn statesman in the harness of the higher duties of life.

It is not given to all great men to see so fully the result of the labor of a life as was enjoyed by Mr. STEVENS. He lived to see the triumph of liberty over slavery; passed through that stern crisis that he in common with other great men felt must eventuate from the attempt to harmonize opposite principles in Government. From his youth upward, he failed not to warn respecting that calamity which changed the face of circumstances in the Union; and his voice and votes were always found on the side of liberty. He hated the enemies of his country, not with that mean hate which seeks personal revenge, but as the embodiment of objectionable doctrines to the extension of freedom.

The name of the departed had become as "familiar as household words." Many agreeing with him on great principles, inclined in some matters to disagree with him. Of late his position was that of the stern Brutus of the Republic, who was ready to strike any Cæsar who would dare to establish the one man power on the ruins of the Commonwealth. His words were listened to with respect even by his political foes. Whatever he found to do, he did with all his might, guided by what appeared to him the noble instincts of duty.

Perhaps one of the greatest disappointments ever experienced in public life by this political chieftain, was the failure of impeachment. In what may be aptly termed his dying hours, he felt so strongly the wrong done, that almost his last public work was the preparation of new articles, which he was prevented from presenting by the advice of friends and the peculiar complexion of the times. In his feeble state of health, it was easier to animate him to longer reopening the vexed question, than as if he had been in possession of that physical vigor necessary for victorious political warfare. He had, however, set his thoughts for months firmly on achieving the great event—conviction of the President, who sought to establish tyrannical power by acting at [illegible] the wishes and purposes of Congress.

The name of THADDEUS STEVENS will live honorably in our history. He was simple and truthful as a child, valiant for what he conceived to be truth, and he disdained not the cry of the humble who sought redress from tyranny. As the early history of the Commonwealth of Rome gave some of the brightest characters in connection with that country, so we recognize in the late Mr. STEVENS a bright and shining light, guided by love of country and patriotism, whose public life adorns the first century of the history of the nation, that period in which it emerged from the gloom of social tyranny to the reconstruction of States on the glorious principle of political equality.

[illegible]

A GRAVE ERROR.

It is reiterated that politics have become a byword because the respectable portion of the community no longer take an interest in the details necessary to the life of the system, consequently the control of all offices of emolument and profit has lapsed into the hands of designing, incompetent and frequently dishonest men. Especially is this true of the municipal offices, offices which are commonly supposed to be safeguards against the evils alluded to, but which, instead of abating the same, frequently furnish a cloak for the commission of notoriously immoral and corrupt practices. Good men deplore the evils resulting from this state of affairs, and yet at the same time make no effort to check the atrocious impositions practiced daily upon the public by men void of principle and character.

These remarks are not necessarily applicable to our own city—as a rule, however, they will apply to nearly every large city in the Union. The complaint is universal and outspoken, but is generally ends in talk without being productive of any discernable good. Now, it must be patent to every reflecting mind that mere talk will not remedy the evil or restore the offices to their original purposes and purity. Something more than mere talk is requisite. Work, patient work, and time (which can never be better bestowed) is absolutely necessary to the accomplishment of this object.

Thanks to the abolition of the abominable caucus system, our citizens have now an opportunity to select men of tried worth and acknowledged ability, instead of being compelled, in a manner, to reward the most "available" men simply on the score of party services. We do not expect to realize at once all the benefits which may reasonably be anticipated through the introduction of the "Crawford county system," at the same time we have no doubt whatever that the evils which gave to all right thinking people concern and anxiety may be mitigated if the respectable portion of the community will perform their whole duty. The future administration of our municipal affairs depends largely upon the character and capacity of the officers selected to fill the most important municipal offices on 15th. Will the better portion of the community rise up in their might and dispense the public offices in such a manner as to promote law and order, or will they supinely submit to the control of the destructive element? We do not doubt that the respectable class preponderates—the query is, will they perceive wherein they have erred, and immediately resolve to retrieve their mistake?

A NEW EUROPEAN POLICY.

England wants Egypt; France an extension of territory; Prussia Germany consolidated. Spain is with difficulty kept from revolution. She has failed from her former magnificence. Portugal, as we said a few days since, must bow to the will of the larger powers. A bold writer recommends a new order of things. France to take Spain and Portugal, with the understanding that England is given Egypt. Prussia is to be silenced by allowing her Germanic territory she does not at present possess. England with Egypt her own, can extend her possessions in Africa. Russia could not fight against such an alliance, Turkey is comparatively powerless, and Austria is without money or credit. Such is the programme, which it is said may have been talked over by the two foreign Ministers of France and England at the late interview. Of course it is all supposition, and may be madness, but there is method in it that may be dangerous. The same writer says that if that policy is pursued by the leading powers of Europe, America will make short work of a number of troublesome governments on this west continent, and thus bring the world into something like legislative order and harmony.

THE "distinguished officer" who wrote the three column review of Grant's generalship, is styled by the Springfield *Daily Republican* "a preposterous ass." The same paper says, "It would be a comfort to see the *World* leave off its senseless abuse of that General, its transparent falsehoods and its low play upon his name, and begin something like a dignified and manly warfare."

THE STATE DEBT AND TAXATION.

Hon. GALUSHA A. GROW, Chairman of the Union Republican State Central Committee, recently addressed a note to Gen. JOHN F. HARTRANFT, Auditor General, asking him what the total debt of the State was January 1, 1860, and January 1, 1868—to what extent, during that period, taxation had been abated or repealed, and what amount of extraordinary expenses had been paid by the State during the same period? General HARTRANFT answers by producing the official figures, from which it appears that the total State debt, Nov. 30, 1860, was $37,969,847 50. On August 5, 1868, the total debt was $33,624,627 47. The tax on real and personal estate has been reduced as follows: Net amount charged to the counties annually from 1860 to 1865, $1,637,334 35. Net amount chargeable annually for 1866, 1867 and 1868, $315,322 19—showing an annual reduction of $1,322,012 16. Extraordinary expenses to a large amount have been paid during these years for military purposes—a fact well known to every tax payer. These figures show an absolute liquidation of *four and one-third million dollars* of the State debt, and an annual reduction of taxation to the amount of *one and a third million dollars*. The immense debt of almost forty millions, which had been contracted under Democratic administrations, has been reduced under Republican rule, and at a time when extraordinary expenditures were incurred by a gigantic war! Nor is this all; while the debt was being reduced, taxation has been materially lightened. When our Republican friends hear Democrats prating about "taxation," "debt," etc., let them have these figures. They are official, and form a sufficient answer to the flippant and baseless assertions of demagogues.

Art Journal.

THE *Art Journal for August*—New York: Virtue & Yorston. The leading engraving in this valuable serial is entitled "God's acre," from a picture in the possession of the publishers. It is a long time since we saw so beautiful an engraving. The number contains part VII. of Memorials of Flaxman, in which are several fine representations of works executed by that eminent man. The picture, "God's acre," is by Miss E. Osborn, engraved by Mr. R. Bowne. The subject is two young girls, who have faced the bitter north wind and the heavy snowfall to pay, perhaps, their daily visit to a mother's grave. Longfellow first brought into note the term "God's acre."

"I like that ancient Saxon phrase which calls
The burial ground God's-acre! It is just;
It consecrates each grave within its walls,
And breathes a benison o'er the sleeping dust."

There is a continuation of the article Exploration of Palestine, Part III of Leeds Exhibition, a splendid engraving, "The Conservatory," from the collection of John Knowles, Esq., [illegible], notices of the Conservation of British Architecture, of picturesque, and records of the deaths of W. B. Johnstone, R. S. A., Alderman Copeland, Thomas Worlidge, and Thomas Duckett. There are also good articles on art in Continental States, art in the provinces, and a long review of the great pictures of the American artist, Mr. Bierstadt. Minor matters and the last notice of the Paris Universal Exhibition, conclude the contents. The *Art Journal* for August, is a valuable number. The conclusion of the notice of the Paris Exhibition will cause the space devoted so long to that to be occupied by matter more in accordance with the high requirements of the Art Union. R. S. Williams, 74 Grant street, is the agent in Pittsburgh.

The Pittsburgh and Connellsville Railroad.

We direct the attention of railway contractors, and others, to the advertisement of the Chief Engineer of the Pittsburgh and Connellsville Railroad Company, inviting proposals for the graduation, masonry and ballasting upon the unfinished sections between Uniontown and Cumberland. This advertisement is significant—it means business. The Company have now reached a point which they have been struggling for years to gain. They have the means to complete the road, (the entire amount necessary having been subscribed,) and will open to investors and shippers a new route to the seaboard in the shortest possible time. The public have some knowledge of the difficulties and dangers which this road has encountered during the past few years, but few persons in this community are aware of the tact, the energy and the perseverance which the President and Directors have displayed in placing this great enterprise upon a successful footing. W. Otis Hughart, Esq., the indefatigable President, has had charge of the financial affairs, and has exhibited a degree of success in his negotiations which proves him fully equal to the task which he has undertaken. The specifications on the work to be done will be ready for delivery on the 29th inst., at the offices of the company in Pittsburgh and Cumberland, so that no time will be lost in commencing operations.

Drouth and Crops in England.

By the latest English steamer we learn that the drouth in England is very severe and of long duration, threatening the worst consequences. No rain of consequence had fallen from the 20th of May to the 27th of July, and growing crops are the poorest known for many years. Stock suffer seriously and have degenerated and greatly in price. From *The Mark Lane Express* we quote as follows:

[illegible]

The *Daily News* of the 28th says, "In the last week in July the harvest is already far advanced all over England, and the fears of dearth are everywhere proving to be groundless."

Mass Meeting To-Night.

The State Central Committee will meet in this city to-day, which will bring together a number of distinguished speakers and workers in the Republican cause. The County Committee, at its session yesterday, arranged for holding a mass meeting to-night, in Allegheny Diamond, which will be addressed by Hon. Galusha A. Grow, H. Bucher Swope, Esq., of Clearfield, and other gentlemen from abroad. The Republicans of Allegheny have long been noted for their rousing meetings, and the spirit and enthusiasm which they manifest on such occasions. They will rally to-night in their strength, and extend an old-fashioned welcome to the distinguished gentlemen who are to address them.

Grant in Illinois.

General Grant will remain in Galena for over a week longer, and the Republicans of that city are preparing for a grand popular demonstration on next Friday afternoon and evening. Gov. Oglesby and other able speakers have been engaged. The intention is to make it the greatest political gathering ever held in that part of the State. The whole of northern Illinois is invited.

AN expedition will shortly sail from Trieste for China and Japan to investigate agriculture, horticulture, wine culture, silk culture and the rearing of bees, as prosecuted in those countries. The recent opening of those countries to the rest of the world is likely to result in important contributions, useful knowledge in sciences and art and mechanics, in which the United States are especially interested. The steps taken by Austria to prosecute inquiries into them is eminently suggestive; and we hope measures will be adopted to enable this country to accumulate full benefit of the superior knowledge those countries have of many things of importance to us.

MATTERS are in a very unsatisfactory state at Seymour, Indiana. The reasons for the lynching of the prisoners connected with the express robbery are given. The inhabitants of the village found that law was disregarded. When any of the gang were arrested, bail was procured, and, if a trial took place, some of the gang got on the jury and acquittal was secured. The Vigilance Committee are threatened, but are well prepared. They say that if the friends of the organized gang attempt any retribution for the death of the six vagabonds that fifteen or twenty more of the gang shall go to death by the same road.

THE Richmond *Whig* is quite certain that the carrying off of the prize for declamation at Harvard by a negro was all a "put up affair," that college, as it says, being Radical to the core. It is hard to make those who all their lives have held the negro in bondage, to understand that he is really a man, and that some negroes may be the equals of some white men. It is not necessary to be a negro worshipper to believe this; but it is essential to the aristocratical system in the South to disbelieve it.

MR. PENDLETON will speak three times in Iowa during the campaign, Des Moines, Cedar Rapids and Fairfield.

A Strange Mixture.

The paragraph informing the public of the marriage of Mike McCoole, to Miss Mollie Noxton, of St. Louis, mixes the marriage notice with his professional pugilistic abilities, and an intimation that Coburn is expected to meet him at the *Clipper* office, on the 15th, or at the Monongahela in this city. The notice blends the serious with the interesting. However moral people may dislike the prize ring and its practices, they have the intelligence of the marriage of a prize fighter, and notice of meeting of two of the order, thrust before them in the same telegraphic dispatch. Who can wonder at the popularity of a prize fighter, when his marriage is blazoned all over the Union by telegraph, and the interesting fact added that the young lady is wealthy.

We will fancy a character—Theophilus Brown—who has served God, his day and generation, by being faithful to the duties of life, teaching in a Sunday School, and marrying the girl of his choice for love alone. No telegraphic dispatch announces his marriage, no mention is made of his wife in any notice, unless in the brief paid for publicity announcing the event. Theophilus Brown has not learned to punch heads; he cannot stand for an hour and try to batter the divine frontispiece of his brother man. He is nobody in the presence of Mike McCoole. He may have learned ragged boys the value of honesty, prayed by the bedside of the sick and dying, but he is not Mike McCoole; has not been in jail in Indiana; has not married a rich lady, and has few appointments at the Monongahela House. That makes a slight difference in the estimate of the two men; therefore Mike McCoole is honored by a telegraphic dispatch and Theophilus Brown, the more useful of the two, and by far the most worthy, remains unknown.

What is the use of talking or writing against prize fights while there is a combination to honor the men who take part in them by telegraphing concerning their doings to all points of the Union? There are many who desire publicity—no matter how obtained. To these the publicity of even an execution, with the attending intelligence that the culprit had died game, might afford some hope of humble imitation if ever called to such distinguished honor though following professional duties. Before the practice of prize fighting and its concomitants can be successfully dealt with by law, society must learn that instead of the homage of one being blazoned with telegraphic pomp, and sadly mixed with a desire to continue in the horrible course of professional bruiser, there shall be, at least, that sovereign contempt for such a trifling event by a public exhibition best shown in silence.

German Grant and Colfax Club at South Bend.

An enthusiastic and well attended meeting of this club was held at the Republican Club Rooms on Tuesday night, Ulrich Fengler occupying the chair. A finance committee was appointed, consisting of John Kleindienst, John J. Myers and Nicholas Bernhart. The President then stated that he had received a letter from Hon. Schuyler Colfax, which the Secretary, John Wagner, would now read to the club:

MR. COLFAX'S LETTER.

"SOUTH BEND, IND., July 31, 1868.

"DEAR UNCLE: I cannot leave for the West without telling you how much gratified I was to find at my residence a beautiful pole raised, with the stars and stripes floating from it, and a streamer also, with Grant and Colfax on it in German text. And that gratification was increased when I learned that it was the work of the 'German Grant and Colfax Club of South Bend,' of which you are the President, and that it was purposed till the evening before my return home to give me an agreeable surprise. I am glad to learn, too, that your club already numbers 145 members, and is increasing at every meeting. For this evidence of their confidence and regard, and for the honor they conferred upon me in acting as an organized escort from the depot to the Fair Grounds yesterday, please tender them my most earnest thanks, and believe me, as always,

"Your sincere friend,
"SCHUYLER COLFAX.

"U. FENGLER, Esq."

Hon. John S. Carlile.

(From the Wheeling Intelligencer.)

A week or ten days ago we printed a paragraph stating that Hon. John S. Carlile, formerly of this State, now of Baltimore, had determined to support the nominees of the Republican party. General B. F. Kelly, of this city, a day or two afterwards addressed a note to Mr. Carlile referring to the report, expressing the hope that it was true, and asking if he would not make an appointment to address the citizens of Wheeling on political topics. To this the General received the following reply, which, with his permission, we print, in order that Mr. Carlile's position, as stated by himself, may be known:

BALTIMORE, August 7, 1868.

Dear General—Your kind favor of the 5th inst. is received. [illegible]

In haste, your friend,
JOHN S. CARLILE.

AN expert who visited the New York cattle market, says the disease shows itself on the animal by restlessness, watery looking eyes, followed by lassitude. The animal walks with head bent forward, the spine extended upwards, as if in great agony, and expires within a few hours after the first symptoms are noticed. There appears on the beasts affected a number of parasites, which form [illegible] between the hind legs, and thence impregnate the animal's blood with the poisonous virus.

PERSONAL.

—Mr. Burlingame has gone to visit his aged father in the West.

—William G. Willis died at his residence in Bullittsville, Boone county, Ky., a few days ago, of apoplexy, in the forty-eighth year of his age. He was probably the largest man in Kentucky, weighing five hundred pounds. His average weight for a number of years has not been less than four hundred and ninety pounds, and sometimes it reached five hundred and twenty-five pounds.

—Brigham Young is evidently "down" on young men of immoral habits. In a recent sermon he spoke of having refused several young saints the privilege of visiting his house and becoming acquainted with his daughters because they were in the habit of profaning the name of Deity, and then added: "I do not wish my daughters to be entangled with one who does not serve God. I would sooner see every one of them sealed to Father Perkins here, who is eighty-five years of age, than that any of them should be sealed to a wicked man."

—Wau-no-pe-wink ("Pretty Bird"), daughter of "Dandy," the head chief of the Winnebagoes, died on the 4th inst., of injuries sustained in the rescue of her child at the La Crosse depot, in Wisconsin. Her injuries rendered amputation necessary, but as she would not submit to the operation her life could not be saved. Four days of mourning ceremonies were held by the Winnebagoes over the remains.

—Mrs. Abby Kelley Foster, of Worcester, who has for the past two years suffered from a dropsical affection, suffered the operation of "ovariotomy" on the 25th ult. She was placed under the influence of ether, and the time consumed by the operation and dressing was some twenty-five minutes, when she was unconsciously removed to her bed. The weight of the morbid mass and its contents was thirty-five pounds. There was a very trifling loss of blood. In about one hour after the operation she awoke to consciousness, rallied from the influence of the anæsthetic and operation very happily and favorably, with none of the frequently subsequent results, as nausea, &c. She still continues in a comfortable condition, with favorable symptoms and a good prospect of complete recovery. Her friends anticipate her restoration to complete health and a return to her former life of active usefulness, from which she has been withheld by disease.—*Worcester Spy, August 10.*

—Napoleon spells badly; but makes other people mind their steps.

—The First Presbyterian Church of Chicago did not make an offer to obtain the services of the Rev. Dr. Newman Hall, of London.

—Rev. Dr. T. L. Cuyler, a classmate of General Frank Blair in one of the Colleges which the latter attended for a short time, says that Blair's only distinction in College was his amputation of a classmate's nose with a carving-knife in a tipsy spree.

POLITICAL.

All the Blairs are to meet shortly, in the Blair mansion at Silver Spring. The object is not stated, only it is political. It is suggested, however, that the father of all the Blairs will then unfold his plan for placing Frank in the White House in case the Tammany ticket wins, not a probable event by any means. It will be observed that Seymour has not been invited to be present.

Speaking of General Butler's chances of re-election, the Springfield *Republican* says: With the support of Dr. Loring, who is said to have formed an alliance, offensive and defensive, with his [illegible], he will feel himself strong enough to carry the District against General [illegible], who is likely to be nominated by the Democrats; and very likely he will be.

The Democratic party of Georgia, at first so jubilant at the return of Hon. Joshua Hill, cease considerably. They rejoiced too early. The Atlanta *Intelligencer* says: The Democracy of the State, and of the whole country, can expect nothing favoring their views from that gentleman. He is a Republican, and favors the election of Grant and Colfax, so he was, and did, before his election as Senator. The fact should be understood by the people of our State, and, recognizing it in the fullest force, we shall have to regard Mr. Hill in the Senatorial character, as not representing in any degree, the Democratic party of Georgia, and, therefore, not representing the true interests of the State.

GENERAL AND PARTICULAR.

The elephant Romeo has been misbehaving himself in Indiana. He wanted water, went through gardens and over fences to a pump, overturned it, and not finding what he wanted, marched triumphantly to a river and enjoyed himself.

The engine in Chickering's piano manufactory, in Boston, has been run for a year by the use of crude oil for fuel, and gives every satisfaction.

Patrick Fitzgerald, a drayman in Detroit, had a difference with Charles Rice respecting some rope wanted for a Democratic pole raising. Rice accused Fitzgerald of stealing the rope. Fitzgerald threw a stone which struck Rice on the head just above the ear. Rice died the same night.

The rush of Scandinavian emigrants to Minnesota, during the present year, has had no precedent since the settlement of the State.

The camp meeting at Sing Sing is progressing favorably. Some powerful speeches have been made and good effected. The New York *Herald*, after a very long notice of Monday's proceedings, says: "By all means let the Brooklyn Blight sinners, clothed in purple and fine linen, together with the Wall street operators, turn their faces to this spiritual Jerusalem (Sing Sing) which, if many of them had their deserts, they would, long ere this, have involuntarily [illegible]."

The Scotch Presbyterian clergy have been very zealous in hostility against the use of instrumental music in worship; but they seem to be giving way before the determined spirit of the people. In Scotland a movement has been begun to place an organ costing £3,000, in the venerable Cathedral of Glasgow.

Dr. Holland, who is visiting in England, contrasts the railway system of England with that of America, and says that in point of comfort in travel the Americans have the advantage. He cannot get used to the customs of English hotels, which he thinks in many instances are barbarous.

In Michigan recently thirty-five men went into a harvest field to cut grain. About ten a. m., no less than sixteen of them had been sunstricken, the majority of whom died under the exposure. Such an instance of wholesale casualty has hardly a parallel in the history of this country.

In a letter to the *Daily News*, Mr. Trevelyan says that the proportion of officers to men is, in the British army one officer to twenty-eight men; French army, one officer to thirty-three men; Austrian army, one officer to forty men; Prussian army, one officer to forty-nine men; British artillery, one officer to thirty-five men.

Apalachicola, in Florida, seven miles from the Gulf of Mexico, is a very interesting place, with a population of two thousand people. The climate is said to be very healthy. The inhabitants chiefly support the Seymour and Blair ticket, but also cordially indorse the reconstruction acts of Congress. There are no military. A writer says, "Removed far enough away from the influences which are disturbing other portions of the South, and even other portions of their own State, they manifest but little interest in politics and appear willing to accept the results of the war in good faith."

A correspondent to the New York *Times* supplies an interesting account of an "ice cream feast" to many of the children at the Five Points. The feast took place at the Institution, and cost $791. When the children had been regaled they were sent out to hunt up "sick cases" where a dish of ice cream would be thankfully received, and they found plenty of cases of wretchedness where the little gift was esteemed a blessing.

A New York paper says that imitation has been carried to its culminating point in the matter of jewelry and trinkets. In several Broadway stores there is now to be seen a display of pearls that would drive Cleopatra to drink were she there to see them. They are made of steel. The fictitious amethysts, emeralds, rubies, and all other stones that are accounted precious mounted in fictitious gold, would deceive the scrutiny of even an expert.

More than 1,800 vessels are employed on the lakes, and more than 2,000 steamers on the rivers of the West.

The juice from walnut leaves is a good preventive against flies for horses. Boil the leaves, take the liquor when cold and slightly bathe with a sponge the most likely parts to be affected.

There was a slight mistake in the statement in certain quarters that the New York bricklayers' strike had ceased. At the meeting of masters and men on Monday evening, in New York, both parties determined to continue firm.

STATE ITEMS.

Mr. Samuel Dear, residing at Stevens, East Cocalico township, Lancaster county, recently committed suicide by hanging.

On Saturday morning a young lad named Zimmerman, aged eleven years, and who resided at Rockville, was run over by the cars at Marysville, Dauphin county, and died from his injuries the same morning.

We learn from the Mechanicsburg papers that a shoe manufacturing company is being formed in that place. Fourteen thousand dollars have already been subscribed.

On Wednesday morning the operator at the Pennsylvania Railroad office in Harrisburg noticed something wrong with the telegraph wires, and immediately located the trouble at Duncannon. The operator at that place, after an investigation, and searching the whole office, found it originated from persons spitting against the wash-board of the office along which the main line and ground wires run, causing a connection through the spittle to the ground wire, effectually cutting off communication east and west of that point until the wires were torn loose and ground connection destroyed.

The grasshoppers are damaging the fall crops of Center county.

Two men, named David Corbin and Thomas Dunn, while putting goose-necks in a furnace at Gaysport, Blair county, fell from a scaffolding a distance of forty feet to the ground. Dunn had his jaw shattered, and Corbin was badly bruised.

The Columbia Town Council have offered a reward of two hundred dollars for the arrest and conviction of the incendiaries who recently set fire to buildings in that borough, or who may hereafter set fire to any building.

The swimming match between Messrs. Poulson, of Wrightsville, and Fisher, of Columbia, came off at the latter place on Friday afternoon. The parties stripped and made their plunge into the water precisely at four o'clock, and then struck out boldly for the opposite shore. A number of boats accompanied the swimmers to pick them up in case of accident. The opposite side was reached a few minutes after five o'clock, but upon the return trip, when about one-half the distance was passed over, Mr. Poulson gave out, thus awarding to Mr. Fisher the prize cup and the championship of York and Lancaster counties.

Hiram Callahan, of McHenry township, Luzerne county, Pa., was bitten by a rattlesnake under peculiar circumstances. He was mowing in a field when the snake came in contact with the scythe and was cut in two. They went on round the field until they came to the same point, when they went to move the snake out of the way. One of the men attempted to lift it with the point of the scythe, but failing to do so, Hiram took hold of the piece to which the head was attached, intending to jerk it away, but as quick as lightning the head came back, and the fangs fastened in the thumb so firmly that he could not pull it off, except by bringing the piece with it. They then put a bandage around the thumb in order to prevent the flow of the poison to the heart. But in a short time the swelling caused the hand to burst. They then tied it around his arm and it again burst. As soon as it could be poured, whisky was administered, but it was thought he would not live.

THE Hon. I. N. Morris, late Democratic member of Congress from Illinois, gives a sad view of the aspirations of the Blair family in a political letter he publishes. He says: "A few days after the nominations were made by the convention which assembled in New York on the 4th instant, I had a conversation in Washington City with Gen. Cushing, of Massachusetts, in which that eminent jurist and politician said: 'The simple question to determine at the election is, shall Gen. Grant or Frank Blair be President for the next four years? for if Seymour is elected he will not live a year.' The announcement, I confess, startled me. I knew Gen. Cushing's intimate knowledge of Gov. Seymour, and that he never indulged in an idle remark."

THE Anthracite Coal tonnage continues very much depressed. The quantity sent to market last week from the Schuylkill region was 11,645 tons, against 86,227 tons in corresponding week last year. The Reading Railroad is now 285,891 tons behind what it was at the same time last year, an amount too great to be made up to the end of the year, even if the coal trade should become active. The entire tonnage this year is 7,092,111 tons, against 7,062,749 tons to the same time last year. The loss for the week is 103,435 tons; and the increase for the season has been cut down to only 29,362 tons.

IT is said that an iron mountain exists in the upper portion of Upshur county, West Virginia, of greater extent and purity than any other known body of iron in the world, not excepting the famous iron mountains of Missouri, and that under this vast body of iron there is a vein of bituminous coal, measuring on the face, where the Buchanan river cuts through, twenty-five feet in thickness. The ore is said to be so pure that a blacksmith took a piece and forged a horse shoe from it. This deposit is on the west branch of the Monongahela river.

THE REBEL WHO NOMINATED BLAIR.

Gen. Preston on the Stump and Going it.

Gen Preston, late of the rebel army, and who was the first to nominate Frank Blair in the New York Convention, made a speech at Lexington, on August 1st, and here is what he said:

The platform itself is clear, broad and unambiguous. There is no dead wood about it. The want of time precludes my going into a full discussion of it, which I would be willing to do, but we have put two men upon that platform, one of whom Kentucky may be especially accountable for. When the nomination of Frank Blair by Kentucky was made unanimous, it gave point and completeness to the whole thing. That portion of the resolutions declaring that the reconstruction acts are unconstitutional and void, came from a Northern man, who has for fifteen years been devoted to the doctrine of free soil within the Democratic ranks. It was not Hampton nor Forrest, nor any Southern man; it came from a far Northern man, who has no affiliations whatever with the South.

Two years ago I said I would never go into any party except it was based upon amnesty and equality. I claimed no superiority after the war had ceased. I claimed no superiority over the Federal soldier; none over the gentlemen who had been connected with the side of the Union; none over the third party—a representative of whom I see before me; but I thought I was as good as any of the men I fought.

When I assembled at New York, I tell you my heart was warmed when the first resolution was offered, and when Hampton and those swords that had been the brightest in fighting for the South were greeted with warm hearts by the greatest soldiers of the North, it made me feel indeed as one people on a basis of equality. [Loud applause.] It has been my fortune to see Napoleon when his conquering hosts returned from the great Italian campaign; I have seen the Queen of Spain after the war in which her armies had been victorious; I have seen great ovations given in many places to princes and others; but I never saw so fine an ovation as upon the nomination of General Frank P. Blair, when they clustered around Hampton and the soldiers of the South, and with outstretched hands, welcomed us to stand shoulder to shoulder with them in the great campaign. [Renewed applause.]

☞ **REPUBLICAN**
CITY CONVENTION.

The Republicans of the City of Pittsburgh are hereby invited to attend Primary Meetings in their respective wards on

SATURDAY, AUGUST 15, 1868,

Between the hours of 3 and 7 P. M., and there vote for candidates to be placed in nomination for the several city offices, viz:
One person for Mayor of said city.
One person for Controller of said city.
One person for Treasurer of said city.

The voting at said meetings will be by printed or written ballots, containing the names of the candidates voted for, each office on a ticket by itself, and the elections, as far as practicable, will be conducted in accordance with the laws and usages regulating state, county and city elections, the officers taking care to keep a correct list of all persons voting thereat.

The elections will be conducted, wherever it can be done, by the Republican election officers chosen at the last city election, and in wards where no such officers were chosen, the officers to conduct the election have been designated, as hereinafter mentioned by the City Committee.

The Committee suggest that the officers thus designated to hold this election shall voluntarily take the usual affidavit administered to election officers under the laws of the State, so as to shut out all cause of complaint.

The election in the First and Second wards will be held at the Public School Houses in said wards.
In the Third ward at the Public School House.
In the Fourth ward at the Public School House.
In the Fifth ward in the office of the Clerk of the Orphans' Court, at the Court House, under the supervision of A. G. Neeper, George Glass and R. J. Smith, who are appointed the Board to hold said election.
In the Sixth ward at the Public School House.
In the Seventh ward at the Public School House.
In the Eighth ward at the house of Henry Wilson.
In the Ninth ward at the Public School House.
In the Tenth ward at the house of Wm. Brown, at the corner of Penn and Mechanics streets.

In the Sixteenth ward at the Wigwam, corner Main and Pearl streets, under the supervision of Noah G. Craig, Roland Smith and John C. Stewart.
In the Eighteenth ward at the place of holding elections for what was heretofore known as the 2d precinct of Collins township, under the supervision of David Jones, David Holmes and David Kirk.
In the Nineteenth ward at Joseph Ganster's house, on the Greensburg turnpike, under the supervision of John N. Berlin, Wm. H. Morrison and James Joyce.
In the Twentieth ward at Beitler's School House, under the supervision of Wm. H. Denniston, Geo. F. Rahauser and John R. Baum.
In the Twenty-first ward at the Wigwam, corner Spring street and Puckity Road, under the supervision of A. J. Woolslayer, S. B. Ross and B. W. Morgan.

In the Twenty-third ward at the usual place for holding elections in late Peebles township, under the supervision of Joseph Boals, James B. Palmer and James McKibben.

Every supporter of GRANT and COLFAX and the city nominees is earnestly invited to take part in said election, *and none other*; and the election officers are hereby respectfully urged to use all possible diligence to preserve the purity of the ballot-box and secure a fair return of the votes cast.

The election officers, after the votes are counted, will make up duplicate returns thereof, one of which, with the list of voters, shall be placed in the ballot-boxes, and the other, taken possession of by the Return Judge; and the Return Judges of the several wards shall present the same at a meeting of Return Judges, to be held at the Common Council Chamber, on TUESDAY, August 18th, at 10 o'clock A. M., when they shall cause the same to be added together, and declare the result, the person receiving the highest vote for each office to be declared the nominee.

The Return Judges, at their meeting, will appoint the City Executive Committee to serve for the ensuing year.

The Committee desires to call the attention of the Election Boards to the following resolution, which was adopted at the last meeting of the Committee:

Resolved, That we recommend to the officers of the Primary Election the enforcement of all legal rules respecting the qualification of voters at general elections, in addition to the requirement that the voter shall be a known member of the Union Republican party.

The persons first named on the various Election Boards appointed by this Committee shall be the Judge of said Election, and are hereby empowered to fill any vacancies that may occur in said boards.

A resolution was also passed authorizing the Election Boards to fill all vacancies occurring in the officers of their respective districts.

HYDRAULIC
COW MILKER.
Wanted immediately all who are looking for business to call and examine the HYDRAULIC COW MILKER, "a sure cure for aching hands and kicking cows." It milks the four teats of a cow at once. It imitates the Calf, draws and stops drawing to swallow. It will milk any cow dry in three minutes. It is operated by hand, dog, horse, or other power. One man can attend several Machines, milking as many cows at once. It is simple, durable and self-adjusting. Will fit any cow. Milks three teated cows as well as any; easily worked; not liable to get out of order, and has proven by practical use to be more agreeable to the cow than hand milking. A rare opportunity is now offered to enterprising men, either to travel or locate in city or country. Call and examine for yourselves.

700 MILES
OF THE
UNION PACIFIC
RAILROAD

Are now finished and in operation. One hundred and sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty-thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample, and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK,

At the earliest possible day, will be done.
The UNION PACIFIC RAILROAD COMPANY receive:

I.—A GOVERNMENT GRANT of the right of way and all necessary timber and other materials found along the line of its operations.

II.—A GOVERNMENT GRANT of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation, and will be a source of large revenue in the future.

III.—THE GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A GOVERNMENT GRANT of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and no more. THE GOVERNMENT PERMITS the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class Railroad, laid with a heavy T rail, and completely supplied with depots, stations, turnouts, carshops, locomotives, cars, &c.

V.—A CAPITAL STOCK SUBSCRIPTION from the stockholders, of which over Eight Million Dollars have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—NET CASH EARNINGS on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through business that must follow the opening of the line to the Pacific, but they certainly prove that

FIRST MORTGAGE BONDS

Upon such a property, costing nearly three times their amount,

Are Secure Beyond any Contingency.

The Union Pacific Bonds run thirty years, are for $1,000 each, and have coupons attached. They bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The Principal is payable in gold at maturity. The price is 102, and at the present rate of gold, they pay a liberal income on their cost.

The Company believe that these Bonds, at the present rate, are the cheapest security in the market, and reserve the right to advance the price at any time. Subscriptions will be received in Pittsburgh by

Jas. T. Brady & Co.,
Corner Fourth and Wood streets,
S. McClean & Co.,
75 Fourth street.
Hart, Caughey & Co.,
Corner Third and Wood streets.
Robinson Bros.,
Phil. R. Mertz,

And in New York at the
Company's Office, No. 20 Nassau Street,
AND BY
John J. Cisco & Son, Bankers, No. 59 Wall street,

And by the Company's advertised Agents throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices or to any of the advertised Agents.

Is Your Disease Rheumatism?

Many persons supposing they are suffering from this disease, have applied Liniments, Plasters and other Rheumatic Remedies without obtaining any relief, when in fact the cause of pain is a derangement of the Kidneys. These are small organs, but very important, and any obstruction or interference with its functions are indicated by pain in the back and loins, languor and weakness, difficulty in voiding and unnatural color of the urine. A Diuretic should at once be resorted to.

DR. SARGENT'S
Diuretic or Backache Pills,
Can be relied upon for these purposes; they have a direct influence on the cells of the kidneys, assists nature in relieving them of any foreign particles, and stimulates them to a healthy and vigorous action.

Dr. Sargent's Backache Pills,
Contain nothing injurious, being composed of entirely vegetable remedies; they do not sicken nor gripe—on the contrary they act as a gentle tonic and restores tone to the system. They are recommended by all who have tried them.

Price of Wheat and Flour.

EDITOR COMMERCIAL: As I expected, Kennedy & Bro.'s replies to my article in the Commercial have been from personal motives. I have made statements and given my authority, have given copies of letters and dispatches from reliable parties in different States, that the public might form their own conclusions from those letters and dispatches. Kennedy & Bro. appear to have learned where and of whom I make purchases—something they have been anxious to ascertain for the past three years. The occasion of all their articles is the reputation of my leading brands of flour have acquired, and the fact of my name being on many of the brands prevents them from being imitated. These flours are now so well known that customers can rely on getting flour that always gives satisfaction at reasonable prices. I claim that I can furnish dealers with reliable flours at lower rates than can be done by manufacturers in this vicinity; I can, most assuredly, when they have to go abroad for wheat. I guarantee my flours in every respect, and that the people may not be imposed upon, use labels on most of my barrels and bags. Intimations from Kennedy & Bro. are old. They had better adhere to facts.

WHERE THE NEW LAND IS.

From Chicago in one day there was shipped seven (7) cars of spring wheat to Kennedy & Bro. In one month shipments of wheat were made to them almost daily. It might be interesting to Kennedy & Bro., and the public, to know the number of cars and bushels; also the date of shipments from Chicago and Milwaukee, also, the quality of wheat No. 1 and No. 2.

SOME MORE NEW LAND.

Kennedy & Bro. Gone for Wheat—Letter from the Proprietor of the celebrated Snow Flake Mills, Dayton, Ohio.

DAYTON, OHIO, August 8, 1868.

MR. T. C. JENKINS, Pittsburgh, Pa.

DEAR SIR—I have shipped you two hundred barrels Snow Flake, and will send all I make. Wheat about here is of no account. I have to go ninety miles for it. Messrs. Kennedy & Bro., millers of your city, have established an agent here to purchase wheat, but as our wheat is very inferior about here, they are welcome to all they get. Yours, respectfully,

JOS. KRATOCHWELL.

I am no speculator, and do not deal in wheat at any time. I have as much as I can do to furnish the trade with flour, but believe I have authority for saying that if Messrs. Kennedy & Bro. feel disposed to sell any more wheat for future delivery, and are willing to discount present quotations, they may report to that effect. This will test their position, if they claim they have taken one, the question of the probable prices of wheat and flour the coming year.

T. C. JENKINS.

FEMALE HEALTH! FEMALE HEALTH!!

A great majority of the Females in this country suffer from derangements peculiar to the sex. First, and most common among these is, FEMALE WEAKNESS or WHITES, or LEUCORRHŒA, with its constant attendants, LASSITUDE, PROSTRATION, LAME or WEAK BACK, and GENERAL DEBILITY. No one can be entirely well who thus suffers, and in hundreds of cases health is utterly undermined. Old school medicines and drugs do but little good—often much injury; but HUMPHREY'S SPECIFIC HOMEOPATHIC FEMALE PILLS are just the thing, relieving promptly and curing permanently. FINANCE AND TRADE.

WEDNESDAY EVENING, August 12.

There is no abatement of the late extreme ease in money. Loans are readily negotiated in our own market at 9 to 15 per cent. per annum, according to the standing and credit of the borrower. It often occasions expressions of surprise, among thoughtful business men, why it is that the high rates paid here does not attract more capital from other points where money is in greater abundance and gladly loaned at much lower prices. There is no use of denying what is passable to every person conversant with financial matters that the rates of interest for the use of money is higher in Pittsburgh than probably at any other point in the country. It is idle to declaim against the banks, as they are asked to loan two dollars for every one they have to offer. The trouble is, there is not enough of capital to meet the legitimate demands of our rapidly extending and prosperous commercial and manufacturing community. In the East, the loan market continues to work with great ease. There is still more money offered on Governments at 3 per cent. than can be employed. On railway and mixed collateral from 3@4 per cent. is paid. Discounts are dull, with rates unchanged from yesterday. That money will be in greater demand in a few weeks seems probable from the large amount of four months' paper offering at the banks. The merchants making this paper have no present use for the money, and would probably leave it at the banks for a month, yet are willing to submit to a discount of 6@7 per cent. to be secured against the pinch which usually attends the making up of the October quarterly statement.

—Gold is firmer to-day, the fluctuations being from 146¾ to 146⅞.

—Government securities within a few days showed a marked improvement. The demand is more active, and prices are firmer and advancing. The most noticeable feature is an improvement in new '65s, for which 109 was bid. This is a fractional advance over 1867s, which have heretofore commanded the higher price. It is rumored that large amounts of 1865s have been quietly shipped during the past few weeks, although they are not classed with exportable bonds.

James T. Brady & Co., bankers, corner of Fourth and Wood streets, furnish the annexed comparative fluctuations of prices for government securities:

—The New York railway share market exhibits more animation and buoyancy. Erie and New York Central are firm and steady at quotations. Michigan Southern advanced 1 per cent. The Northwest stocks are higher, and that fact is associated with the return to the street, after an absence of four weeks, of the leading broker and operator in these stocks.

The following table, made up from dispatches received at J. W. Kennedy's Stock Rooms, Apollo Building, No. 80 Fourth street, shows the prices of Railway Stocks, Gold, &c., at the various sessions of the New York Board during the day:

PENNSYLVANIA CENTRAL STOCK YARDS.

OFFICE OF THE PITTSBURGH COMMERCIAL, WEDNESDAY EVENING, August 12, 1868.

CATTLE—The market was well supplied with cattle, mostly of a very superior quality, and there was a fair demand, but prices of choice ruled about $1 00 ℔ hundred off since our last weekly report. Medium and stockers sold near up to the prices of one week ago. Sales of fat cattle were entirely confined to Eastern buyers, city butchers not taking any worth mentioning. The medium and stock cattle were taken by drovers in the eastern part of the State. Several of our drovers lost heavily on their purchases here for the Eastern markets last week, owing to the panic in regard to the diseased lot of 18 cars, which arrived in the early part of last week at these yards. All the details in regard to that lot have already been published, but we again take the occasion to repeat the fact, that there was no arrival of any diseased cattle in this market, either from Chicago or elsewhere, previous to the one train of 18 cars, and none since. All this lot was summarily disposed of by our authorities, and consigned to bone boiling establishments, excepting 140 head, which were shipped east to Cuminapaw, to similar bone boiling establishments, and, as we learn, all but two or three died in transit to that point. The yards were entirely cleared one week ago, and have been renovated, and are now in most excellent condition. All the diseased cattle mentioned above were taken at once on arrival at the yards to separate enclosures outside the regular pens, and there carefully guarded, (no other cattle being allowed to come near them,) and so remained until disposed of.

The market during the past week has been in favor of buyers. The extreme rates were $4 20 to 7 50 ℔ hundred. The following exhibits the operations for the past three weeks:

July 30th	1,060	$4 60@8 25
Aug. 6th	894	3 50@8 12
Aug. 13th	1,090	4 20@7 50

The increase in sales were 196 head.

SHEEP—The weeks operations were the largest we have reported for a long time, and prices ruled a shade lower. The number in pens this morning is reported at 15,000 head, mostly very poor in quality. The better qualities sold readily to Eastern buyers at about the same prices reported one week ago. Eastern drovers also purchased the medium and lower class at nominal rates to take east for the purpose of disposing of them to farmers. Some six car loads of ewes were taken east to New Jersey for breeders, a usual case every week. At the close of the market to-day there were a large number of the poorer qualities of sheep left on the market. The extreme rates for sheep were $2 80@5 50 ℔ hundred. The transactions for the past week were as follows:

July 30	8,384	$2 75@5 00
August 6	11,950	3 00@5 50
August 13	18,250	2 80@5 50

The excess of sales over last week was 6,300 head.

HOGS—The quality for sale was not quite as fine as last week, but notwithstanding, there was very little falling off in prices from those reported one week ago, and at the close of the market to-day there were very few good hogs remaining unsold. The extreme rates were $7 45@10 80 ℔ hundred. The sales for the past three weeks were as follows:

July 30	3,999 head	$8 75@10 60
August 6	3,788 head	9 30@10 90
August 13	3,892 head	7 45@10 80

The above shows an increase in sales of 104 head.

The shipments East to-day were as follows:

Cattle, 18 car loads.

Sheep, 35 double-deck cars.

Hogs, 16 double-deck cars.

Horses, 4 car loads.

PRODUCE AND GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL, WEDNESDAY EVENING, August 12, 1868.

During the past week there has been but very little change in commercial affairs. It is certain that trade, in our general markets, continues to improve but very slowly. The prospects are fair for a good fall business. The economical handling of grain and flour continues to be agitated in commercial circles. Wheat is in fair demand by our millers, but dealers are not disposed to purchase until the market becomes more settled, and the extent of the late harvest is fully known. The demand for corn is light, and there is not much offering, but holders are firm at quotations. Old oats are nearly out of market, and the receipts of new are extremely light. There is a moderate demand, but only for immediate use. Rye, both old and new, is scarce and advancing. There is nothing doing in barley, and no fixed price established. Groceries are moderately active, especially sugars and coffee, which are held firmly at quotations on account of the high gold prices. The provision market is firm and advancing. Mess pork sold to-day at $30 50. Butter and eggs are lower.

The receipts of leading articles of produce continue light, but generally adequate to supply all the demand at present prices. Since our last issue, we note the following: Flour, 372 barrels; apples, 85 barrels; cheese, 20 boxes; wheat, 1,814 sacks; barley, 222 sacks; oats, 89 sacks, and butter, 57 packages.

We quote as follows, which are the current wholesale store prices, unless otherwise noted:

Groceries.

There is a moderate demand for groceries in small jobbing lots. We note no changes in the market at present, but the high gold rates cause sugars and coffees to be held firmly at the quotations and tending to an advance. We quote as follows:

COFFEE—Old Government Java, in bags, 37c; in mats, 38c; Laguayra, 26@27c; Rio, Fancy, 27½c; choice, 27c; prime, 26c; fair 25c; good, 21@23c.

VINEGAR—We quote white wine vinegar, in original packages, 75c. Cider vinegar from 20@30c ℔ gallon.

LYE—Concentrated Lye, $7 75.

CANDLES—Proctor & Gamble's star candles, 26c for full weight; mould candles, ℔ ℔, 16c.

INDIGO—Madras 90c@$1 50; Manila 95c@$1 45.

BAR LEAD—From store, 12½c.

DROP SHOT—℔ bag $3 50.

STARCH—Madison, 8c; Magnolia starch 8¼c; Silver Gloss 12½c; Corn starch 13½c; Satin Gloss 12½c.

BUTTER—The demand is fair but the receipts have sufficiently improved to make a decline, and we quote prime to choice at 30@33c ℔ ℔.

EGGS—The supply has been liberal, and the market rules dull at 16@18c ℔ dozen.

BACON, LARD, ETC.—There continues a good demand, and large sales reported, with an advancing tendency. We note sales of 18,000 ℔s shoulders at 14c; 9,000 ℔s rib sides at 16½@16¾c; 5,000 ℔s clear sides at 18¼@18½c; 19,000 ℔s sugar cured hams at 21@22½c; 15 tierces lard at 19½c ℔ ℔ and 15 bbls mess pork $30 50 ℔ bbl. It will be seen that there is considerable advance in prices over our last quotations.

LARD OIL—Demand continues good and prices are stiffer. Sales of 30 barrels extra No. 1 at $1 45, and 17 barrels No. 2 at $1 15 ℔ gallon.

APPLES—There is a fair supply in the market at prices ranging from $3 50@5 50 ℔ barrel, as to quality.

PEARS—Sales at $9@10 ℔ barrel as to quality. Supply light.

ONIONS—Small sales at $6 ℔ barrel. The receipts are improving.

SEEDS—Flax seed is in moderate request at $2 ℔ bush. There is no movement in either clover or timothy seed, and prices are entirely nominal.

POTATOES—The supply is good, and the market dull at $2@3 25 ℔ barrel for choice.

HAY—No choice baled offering. From country wagons we quote prices ranging from $20@28 @ ton, as to quality.

FLOUR—The flour market has ruled moderately active all week and holders of choice brands are firm at quotations, to which quality the demand is principally confined. The demand, however, is entirely for supplying immediate wants, there being no speculative feeling whatever in the market. There has been no change in prices since our last. We have been furnished with the following quotations for a variety of brands on the market: Muskingum Valley $11; Diamond Mills $10 50; Snow Flake $11 00@11 25; Empire $10 50; Crossett's (to arrive) $10 75; White Star and Riverside $11 00; Clark's, Sear's best, Advance and Smoky City, $10 75; Monitor, Cedersburg and Columbia, $10 25@10 50 ℔ barrel. From the mills there is a fair demand and we quote the Pearl Mills and City Mills, which are the current prices for the various mills about the city, as follows: Double extra, wholesale in barrels, $11, and retail $11 50; wholesale in sacks by the barrel $10 70, and retail ℔ single sack $2 85; extra family flour in barrels $10 50, and retail $11; wholesale in sacks by the barrel, $10 20, and retail $2 70 ℔ sack. From store we quote choice red winter wheat flour at $10 75@11 75 ℔ barrel; choice spring $10 50@11 25 and medium grades $9@10 25 ℔ barrel.

RYE FLOUR—Demand light with a few sales reported at $9@9 25 per barrel.

CORNMEAL—There is not much inquiry. We quote at $1 20 ℔ bushel for a choice article.

GRAIN—The transactions in grain are extremely limited, there being no speculative feeling whatever in the market for any kind of grain. The receipts of wheat are confined almost entirely to the orders of city millers, as dealers and speculators are waiting for further developments as to the extent of the crop lately harvested, and are not disposed to purchase at present rates. The crop of old wheat is nearly exhausted, and there has not been sufficient time since the harvest for new, of any amount, to be sent forward to market. We notice, however, a little more firmness in the market, and quote the mill price for No. 1 at $2 10@2 15, No. 2 at $2, and white wheat at $2 15@2 20 ℔ bushel. There is, however, very little old white wheat to be had, and prices are merely nominal. Corn is in but moderate request with but light stocks. We notice a sale of 1 car choice shelled, in elevator, at $1 12, and quote at $1 10@1 12 ℔ bush. Old oats are about gone out of market and sell from store at 83@85c ℔ bush. Sales of new oats from wharf and elevator at 69@70c ℔ bush, but the receipts thus far are extremely limited. Old rye is scarce and wanted at $1 50 ℔ bush. New rye is coming in slowly at $1 25 ℔ bush. No barley offering.

Iron at Cincinnati.

The demand has been more active for No. 1 foundry iron, and the market is firm at full prices. Mill iron is still dull. Malleable iron is dull and irregular, excepting horse and mule shoes, which are in active demand at full prices. The *Gazette* quotes:

RIVER NEWS.

THE RIVER.—The marks on the pier indicated two feet one inch. There is, however, full three feet on the left of Glasshouse. The Camelia left last evening, drawing over thirty inches. She tows a barge and has all the freight wanted and a fair share of passengers.

THE steamer Kate Robinson is laid up at Cincinnati.

THE steamer America, Captain Poe, reshipped her New Orleans freight at Cairo.

THE Ida Rees is over due. She had not arrived up to the time we left the landing.

THE boats on the Slackwater are doing a fair business. They arrive and depart on time.

THE light draught passenger steamer Allena May, Captain Fricker, leaves to-day at noon for Wheeling and Parkersburg.

MONDAY'S Louisville *Democrat* says: Capt. Pink Varble will bring the Grand Lake, Simpson Horner, Dick Fulton and Alps up over the falls to-day.

THE work of grading and paving the Monongahela wharf is progressing very slowly. Advantage should be taken of the present fine weather to hurry the job along.

ON her last trip down the Illinois river, the City of Pekin knocked a hole in her hull, which will compel her to withdraw from the trade for a few days, and be hauled out on the ways for repairs.

THE snag boat J. J. Abert's crew are nearly all sick, but are recovering, except Captain Dodson and watchman Wm. Sloan. Captain Dodson is dangerously ill. Several officers go home on account of sickness.

AN ex-river reporter started to Portland a few days ago on a Market street car. But, from the effect of some powerful narcotic, fell asleep and went on to Twentieth street. When he awoke he denied that he was going to Portland, and said that he was only riding for his health. He found it at the end of the road in a bar-room.

ST. LOUIS.—A dispatch says: The statement which appeared in the *Democrat* yesterday morning in regard to Capt. W. J. Kouns going on the Great Republic, was entirely premature; as was also the one, emanating from another source, to the effect that Capt. Pat. Yore would command her. The owners of the boat have not determined who they will place in charge.

LOUISVILLE—ARRIVAL OF THE COAL FLEET.—The present little swell in the Ohio had the effect to increase the stock of coal at this port. The fleet that left Pittsburgh on the "bulge" arrived yesterday, and their appearance in our harbor presented a busy scene. The following towboats arrived with coal, some of which left their barges and took empty ones and left for Pittsburgh: The Sam Roberts, 7 barges; Eagle, 5 barges; Vic Wilson, 3 barges; Leader, 2 barges for New Albany; Mary Ann, 9 barges; Stella, 10 barges; N. J. Bigley, 6 barges; Tom Rees, 6 barges; Hercules, 9 barges; Keystone, 5 barges.

PASSING AWAY.—We are grieved to learn of the death of Capt. Wm. Holliday, an old Upper Mississippi river pilot and captain, well known in St. Louis and in the river towns between there and St. Paul. This event occurred yesterday morning at four o'clock, at the residence of the deceased in Keokuk, Iowa. Captain Holliday was about 51 or 52 years of age, and had been on the river as captain and pilot 31 years. He commenced his career as a keelboatman, when very young, and during an active life was universally respected. His death will be regretted among a wide circle of associates and friends.

THE steamer Camelia left yesterday noon and passed through Brunot's Island about three o'clock, with barges in tow. She struck what is recently called Jacobus bar, causing her to sheer down on McGonnigle's Run bar and taking the top gravel off the bar. At the same time the Emma Logan No 2 was coming up with two stone flats in tow, which she landed here in the afternoon. The marks in port call for twenty-three inches; while the flats were drawing twenty-seven inches. This shows that low water boats have quit business, or that the enterprise and energy of steamboatmen is diverted to another channel and they have put their capital to other uses. In times gone by steamers were regularly leaving here with twenty inches in the channel, while at the present time there is only one boat that is shingled for a port below—the Allena May, for Parkersburg.

SAW

And Your Mill will do Good Work

Our Saws are Oil Tempered, Patent Ground, made to Run well.

You will find each Saw of one temper, no hard and soft spots in the same saw.

We accomplish this by our Patent Tempering Process, and you can not get this from any other saw maker, as we own the patents for the United States.

We do not claim to make a cheaper Saw than any one else, but one that will run at the word go, and will give no trouble, and will keep round longer; because being uniform with temper, it will not wear on one side faster than the other.

We invite correspondence, or an interview with the practical man of your firm.
